

Polish Gold (PGLD) – Whitepaper v1.0

1. Project Mission

Polish Gold (PGLD) was created for a simple and honest reason – to make millions. But not just for the creator. Anyone who joins early has a chance to profit if the project takes off.

This is a coin for those who don't like corporate nonsense – just real talk and opportunity. No promises to change the world – just a straightforward community-powered investment chance.

2. What Makes Polish Gold Unique?

- Created by a Polish developer – with that Polish mindset: fight, hustle, survive.
- Simple tokenomics and full honesty – 100% transparent, no hidden minting or secret team.
- For early birds – get in now = more potential upside before the crowd arrives.
- No corporate fluff – no fake roadmaps or empty promises.

7. Summary

Polish Gold is an honest experiment in the memecoin space. If the hype grows – early supporters win. If it doesn't – that's life. But no one was fed false promises.

Getting in? Do it now. Later might be too late.

Not interested? That's okay – but don't say you never had the chance.
